STREET BOUNDARIES OF CENSUS TRACTS	55

HEALTH AND WELFARE AREAS

The sole purpose of this volume is to make it possible to identify easily any street in Boston, and to locate accurately any house in the appropriate census tract.

Since the publication of the original street list, larger districts known as Health and Welfare Areas, each of which is composed of a number of census tracts, have been established, primarily for the purpose of statistical recording. For the use of those who are interested in the collection of neighborhood statistics comparable to those published by Health and Welfare Areas, this list of areas with their constituent census tracts is herewith given:

<u>HEALTH & WELFARE AREA</u>	<u>TRACTS INCLUDED</u>

DIRECTIONS FOR USING THE STREET INDEX

All of the streets in Boston are listed alphabetically in this index. By means of the index every house address in the city may be located, according to the census tract in which it is situated.

In Boston the same name has frequently been given to streets in several different parts of the city. In order to prevent confusion because of this duplication, the name of each street in the index is followed by bracketed letters indicating the Health and Welfare Area in which the street is located. Health and Welfare Areas are designated as follows:

(B.B.) Back Bay	(E.B.) East Boston	(Rox.) Roxbury
(Bri.) Brighton	(H.P.) Hyde Park	(S.B.) South Boston
(Chsn.) Charlestown	(J.P.) Jamaica Plain	(S.E.) South End
(Dor.) Dorchester North	(N.E.) North End	(W.E.) West End
and Dorchester South	(Ros.) Roslindale	(W.R.) West Roxbury

EXAMPLE:

Where a street lies entirely within one census tract, any possible house number on that street will be contained within that tract. In such instances the tract designation follows the name of the street.

Olive St. (BRI.). Y4

This means that Olive Street in Brighton lies wholly within the census tract Y4, and that any house number on that street may be assigned to census tract Y4.

EXAMPLE:

In cases where a street runs through two or more census tracts the even house numbers will be found in the left-hand column, and the odd house numbers in the right-hand column beneath the street name. Following the house number will be the letter and number of the census tract in which those particular house numbers are located.

Adams St. (DOR.).		
2-208	5-99	T4A
	107-161	T4B
	175-223	T9
216-470	227-473	X1
488-628	501-597	X2
	609-1213	X3B
630-902		X3A
920-1204		X3B

For intervening nos., see Gallivan Boulevard.

This arrangement means that of the five Adams Streets listed within the City of Boston we are dealing with that located in Dorchester. Of the even house numbers on this street those from No. 2 to No. 208 fall within census tract T4A, those from No. 216 to No. 470 within census tract X1, etc.

The first actual house number at present on the even side of Adams Street is No. 34, but prior to that house there is space occupied by vacant lots, unnumbered warehouses, etc., to which the house numbers from No. 2 to No. 32 may in the future be given. We have therefore assigned the numbers continuously from No. 2 to No. 208 to census tract T4A, although at present No. 2 does not actually exist as a number. The numbers intervening between No. 208 and No. 216 are taken up by the street (Dorchester Avenue) which separates census tract T4A from census tract X1 at this point. In census tract X1 the building at No. 216 is situated just within the boundary of the tract, and the house at No. 440 is the last actually numbered on that side of the street within tract X1; there is, however, space within tract X1 to account for houses up to No. 470; this number is therefore used as the last probable even house number which may occur within census tract X1.

Examples of the method of locating definite addresses by census tracts:

To locate 415 Harrison Avenue.

Find Harrison Avenue (S.E. and ROX.) in alphabetical street list.

Follow down right-hand column of house numbers until No. 415 is found, within census tract I4.

To locate 25 Norfolk Street, Roxbury.

Find Norfolk Street (ROX.) in alphabetical street list.

Since this street is entirely within census tract U3 all house numbers on this street, including No. 25, are within census tract U

To locate 256 West Newton Street.

Find West Newton Street (B.B. and S.E.) in alphabetical street list.

Note that No. 230 to No. 266 (including No. 256) fall within census tract J4.
